Implication of Phase-folded Diagrams for Validation of the Nature of Stellar Variability I: the case of NGC 6866 <i>Gireesh C. Joshi</i>	3
H_α spectroscopy of the recurrent nova RS Oph during the 2021 outburst <i>R. K. Zamanov, K. A. Stoyanov, Y. M. Nikolov, T. Bonev, D. Marchev, S. Y. Stefanov</i>	24
Observational data and orbits of the asteroids discovered at the VATT Observatory in 2010-2012 <i>I. Włodarczyk, K. Černis, R. P. Boyle</i>	31
Ultra-short period contact binaries: restricting the parameters of the primary using Gaia parallax <i>Alexander Kurtenkov</i>	46
Long-term optical photometry of the PMS stars V2764 Ori and LkH 301 in the field of the McNeil's Nebula <i>G. Zidarova, S. Ibryamov, E. Semkov, S. Peneva</i>	54
Intra-night flickering of MWC 560: Parameters and quasi-period modes. Comparison with RS Oph and T CrB <i>Ts. B. Georgiev, S. Boeva, K. A. Stoyanov, G. Latev, B. Spassov, A. Kurtenkov</i>	62
Application of Kolmogorov-Smirnov Test in the Distribution of Saturn's Regular Satellites <i>Fabao Gao, Huan Cheng</i>	76

Spatial Orientation of Galaxies in the Substructures of SDSS Supercluster S[184+003+0077] <i>Janak Ratna Malla, Walter Saurer, Binil Aryal</i>	97
Analysing the Time Period of the Vela pulsar <i>Shreyan Goswami, Hershini Gadaria, Sreejita Das, Mid- hun Goutham, Kamlesh N. Pathak</i>	108
